

DEAs... Increase your income!

Become a qualified HIP provider and promote and sell packs in your own area

“ We have used the software supplied by PSN and have been very impressed by the quality of the product. It is true to say that at first the whole HIP issue was daunting, but after getting involved in the process and using the software supplied by PSN we are now very happy and confident of our product in the competitive market place. HIPS are currently here and as a company we are happy with our decision to supply them. ”
